HARPSCOOL MASTERMIX ONE

Hello and welcome back to the Ben Hewlett Harmonica Course.

This CD/book is Volume 4 and is available in hard copy or download as a whole or track by track throughout the known world via www.HarmonicaWorld.net.

The 4 hole harmonica is a one octave instrument in C which we use a lot for new harp players. It is the same as the middle four holes on the normal 10 hole instrument, so you can use either with this CD/book.

So here you're going to find four groovy new chugs, four new tunes to learn from Paul Lennon's extensive portfolio, four classic tunes to learn, five blues riffs, and a play along track to practice them with and finally three tracks recorded by three expert Harmonica players to introduce them to you.

Here are the brand new train style chugs for you to learn. And take a close listen to the drums - Paul's been working hard!

By the way, all the play along tracks on all our CD's are mixed with the Harp on the right channel and the band on the left.

So if you want to get rid of my Harmonica playing so it's just you and the band, turn the balance to the left, or if you want to lose the band to listen to me, turn the balance to the right.

Ok let's get chugging, I think you're ready to play with the band!

Here's your first train sound.
Chuggalugga Chuggalugga Chuggalugga Chug

Here's the next one.
Dacka Dacka Dacka Diddley Dook Diddley Dook

The next...
Diddley Dook Diddley Dook

And finally...
Tunka Shang me Tunka Shang

Listen to the CD to see how they work and play along with the band.

TRAIN CHUGS

Tracks 4, 6, 8 and 10

All these chugs use holes 1 & 2 on the 4 hole diatonic harmonica

Hewlett & Lennon ©2005

♩ = 100
